

UniCarriers TX3 Electric Forklift to Receive Red Dot Award

Kyoto, Japan (May 30, 2018) - Mitsubishi Logisnext Co., Ltd. announces that its electric-powered counterbalance forklift, UniCarriers TX3, a model marketed to Europe, Asia, Middle East and Africa, has received Red Dot Award 2018 effective from April 9, 2018.

Red Dot Award is an internationally influential product design prize launched in Germany, 1955. A jury of international experts finds the year's best products in criterias such as degree of innovation, functionality, ergonomics and durability.

UniCarriers TX3 has received high accolades for the exceptional combination of design and functionality, especially the outstanding visibility from operator's compartment and the high safety achieved due to this design.

The award will be officially presented on July 9, 2018 in Essen, Germany.
